All should seek a professional's advice before diagnosing for themselves.

Healthy Systems premium Aloe Pure Crème is a luxurious, therapeutic, comforting crème that offers soothing relief from unsightly skin conditions.

Aloe Pure Crème may be used to effectively hydrate all skin types ...even the most sensitive skin areas. It's a comprehensive regime that builds the skin and allows it to regain the ability to attract and retain moisture.

When combined with the benefits of proper nutrition, you'll notice a healthier smoother feeling from head to toe. It's totally non greasy, absorbs easily, won't stain and is exceptionally great as a moisturizer as well as an exfoliate for the skin.

Aloe Pure Crème utilizes a "whole leaf patented process" that reduces the negative effects of free radicals and helps teach the skin to retain moisture while it cleans and sloughs away dead skin cells.

Many scientific papers describe the activities of Aloe Vera applied externally to the skin as:

- *A natural cleanser.*
- *Penetrating tissue.*
- *Helping break down and digest dead tissue.*
- *Helping enhance normal cell proliferation.*
- *Moisturizing tissues.*
- *Relief for stings.*
- *Relief for psoriasis.*
- *An aid for heat rash/prickly heat.*
- *An odor control/under arms.*
- *Relief for skin allergies.*
- *Relief for eczema*

Aloe Pure Crème is just a simple answer for dry, sore or sensitive skin that comes to us right from nature it self. The age-old moisturizing properties of Aloe are now available in this soothing crème. Aloe Pure Crème provides effective relief for so many things; they are too many to list.
